Tyler,

What is going on with this?

tk

Subject: Historical sites in Bears Ears National Monument

All,

The proclamation makes general reference to historical objects including "cabins, corrals, trails, and carved inscriptions in the rock reveal the lives of ranchers, prospectors, and early archaeologists." Are there any specific named historic features located on National Forest System Lands inside the Monument that would fall under this general objects description included in of the proclamation?

If so, would you please share the names of those objects with me, including a short description and approximate location.

Thanks,

--
